A WEEKLY NEWSPAPER FOR FACULTY AND STAFF AT THE UNIVERSITY OF MARYLAND AT COLLEGE PARK

UPUB I7.002

MAY 6, 1991
VOLUME 5, NUMBER 28

Kathryn Mohrman to Deliver Commencement Address

Dean for Undergraduate Studies Kathryn Mohrman will deliver the campus-wide convocation address during the university's spring commencement ceremony May 23 at 9:30 a.m. in the Cole Activities Building.

Jeffery Todd Adler of Pikesville, Maryland, who will be receiving his bachelor's degree in government and Politics, will deliver remarks on behalf of the graduating class as the convocation speaker.

A student with a 4.0 GPA, Adler has been the recipient of many honors and awards throughout his collegiate career, most recently the 1989-90 Rotary International Ambassador of Goodwill Scholarship and *USA Today's* All-USA Academic Team, which is awarded to the top 120 American students who excel not only in scholarship but in leadership roles on and off campus.

Adler is also founder of the Not Just Talk Coalition, an organization that seeks to promote understanding between a coalition of campuses

and homeless communities and a recent recipient of the Byrd Citizenship Award for the Most Outstanding Male Senior.

Approximately 3,555 students are expected to receive diplomas during the commencement ceremony, including 2,800 bachelors' degrees, 575 masters' degrees, and 180 doctoral degrees.

Mohrman, a staunch advocate for improving the quality of the undergraduate experience for College Park's 24,000 students, has been dean for undergraduate studies since 1988.

Many of the changes overseen by Mohrman were outlined originally in the plan, "Promises to Keep: The College Park Plan for Undergraduate Education," popularly known as the Pease Report. This plan calls for a major restructuring of undergraduate education at the university.

Some of the innovative changes at the university during Mohrman's tenure include enhancement of the University Honors Program,

Dean for Undergraduate Studies Kathryn Mohrman

creation of the Division of Letters and Sciences, which is a general college for undecided students, establishment of the Francis Scott Key merit scholarship program for outstanding students of all races and backgrounds, improvement of the Distinguished Scholar-Teacher program, expansion of undergraduate research opportunities, and creation of the Center for Teaching Excellence.

Lisa Gregory

Schedule of Individual Commencement Ceremonies

Agriculture and Life Sciences: 2 p.m., Memorial Chapel

Architecture: 11:30 a.m., Architecture Auditorium

Arts and Humanities: 11:30 a.m., Edward Fink, speech communications professor, Tawes Theatre; 2 p.m., James Leshner, philosophy professor, Tawes Theatre

Behavioral and Social Sciences: 2 p.m., Jehan Sadat, former first lady of Egypt, Cole Student Activities Building

Business and Management: 11:30 a.m., L. Ralph Hicks, Jr., former chair of the board, president and CEO of Sovran Bank/Maryland, Cole Student Activities Building

Computer, Mathematical and Physical Sciences: 11:30 a.m., astronomer Vera Rubin, Memorial Chapel

Education: 11:30 a.m., Reckord Armory

Engineering: 2 p.m., George J. Laurer, inventor of the Universal Product Code and Electrical Engineering alumnus, Reckord Armory

General Studies: 11:30 a.m., Colony Ballroom

Health and Human Performance: 11:30 a.m., PERH Building, Rm. 2101

Journalism: 11:30 a.m., Peter Pritchard, editor of *USA Today*, Hoff Theatre, Student Union

Library and Information Services: 11:30 a.m. Jerry Kidd, retiring CLIS professor, Zoology-Psychology Building, Rm. 1240

Public Affairs: 11:30 a.m., LeFrak Hall

NOTE: Human Ecology: Wednesday, May 22, 7:30 p.m., futurist David Pearce Snyder, Memorial Chapel

Schmitz Honored for Improving Campus Climate for Women

On May 17 from 4 to 6 p.m. in the Art-Sociology atrium the President's Commission for Women's Affairs, the President's Office, and the Greer Committee will honor Special Assistant to the President Betty Schmitz for all that she has done to improve the climate for women at College Park.

Brought to the university as special assistant to the president, Schmitz, a national leader on women's issues, has spearheaded the effort to change the environment for women at College Park in the three years she has worked in the president's office. Her contributions have been considerable.

In September, 1988, shortly after her arrival, Schmitz announced campus priorities for implementing the educational agenda outlined in the Greer Report. This wide-ranging document contains a comprehensive set of recommendations in three critical areas: transforming the curriculum to reflect the perspectives and contributions of women; developing a classroom and campus climate supportive of women; and increasing the involvement of women in majors non-traditional to them.

In addition to advising the president on implementing these and other Greer Committee recommendations, Schmitz has developed an inclusive language policy and conducted campus workshops on the policy, has enhanced the uni-

versity's visibility on women's issues by making many national and regional presentations, and has coordinated activities with the American Council on Education's Office for Women in Higher Education. The success of College Park's program as a model program for change was demonstrated recently when it was featured as a national model at the 1990 American Council on Education's annual meeting.

Last year, Schmitz was among the women who helped create the new Women's Forum of the University of Maryland System. Along with Georgia Sorenson and Joan McKee, the two other university representatives to the system-wide organization, Schmitz organized the campus chapter of the forum, a grassroots organization to provide a place for women to speak and be heard about the conditions of their lives at College Park and to exchange information with other chapters of the system-wide forum.

Just a few weeks from now, another major endeavor that Schmitz began to develop well over a year ago will take place at College Park.

Schmitz has worked closely with the American Council on Education to plan a major national conference that will bring a number of presidents of America's foremost

Betty Schmitz

Faculty/Staff Athletic Card Available

University faculty and staff can now purchase athletic cards for the 1991-92 academic year. The cards offer university employees the opportunity to see our football and men's basketball teams at a greatly reduced price, while also enjoying the free admission to all other Terrapin events on campus. Several different plans are available. For more information, stop by the Athletic Ticket Office in Cole Field House, or call 314-7070. Home football games are Sept. 7—Virginia; Sept. 14—Syracuse; Sept. 21—West Virginia; Oct. 26—Duke; Nov. 9—Penn State (in Baltimore).

Business School's MBA Program Ranked Among Nation's Best

The MBA Program of the College of Business and Management has been ranked among the nation's Top 25 Business Graduate Schools by *U.S. News & World Report*. The news magazine's April 29 cover story focuses on America's best graduate schools in business, law, medicine and engineering.

The magazine places the Maryland program 24th among 257 accredited MBA programs at both private and public schools and 10th among public business schools.

MBA programs were ranked on the basis of external factors such as their reputations among academics from other business schools and corporate CEOs, and internal factors that include graduation rates and graduates' average starting salaries.

"Making the list just confirms what we have known for years," says Dean Rudolph Lamone. "We have a first-rate business school. Our students, faculty and staff have every right to be proud."

Dean Rudolph Lamone

Two Win Invention of the Year Awards

Two assistant professors of veterinary medicine have won the 1990 Invention of the Year award. It was the first time since its inception four years ago, that there has been a tie for the award.

Vikram Vakharia won the award for his patent disclosure for "Specific DNA and RNA Sequences of Infectious Bursal Disease Virus and Resulting Vaccines." Siba K. Samal won the award for "Cloning and Sequencing of Bovine Respiratory Syncytial Virus."

Both men were selected for the award by peer vote of all university

researchers who filed patent disclosures on inventions during the calendar year.

Infectious Bursal Disease (IBD) is a highly contagious viral disease of young chickens characterized by severe immunosuppression that can result in impaired growth, decreased feed efficiency, and death. Vakharia's research provides a foundation for new poultry vaccines that are safer and more effective at protecting both breeder hens and broilers.

Bovine respiratory syncytial virus (BRSV) is an RNA virus that

causes lower respiratory disease in cattle. Infected cattle suffer extensive damage to the mucous membranes leaving a respiratory tract susceptible to dust, debris and secondary infectious agents. High mortality is common. Samal has identified and cloned the genes responsible for BRSV. This technology will find application in the preparation of new BRSV vaccines and diagnostics.

Both inventors were honored at an April 18 reception at the Rossborough Inn hosted by the Office of Technology Liaison.

Open Letter Regarding the 40-Hour Work Week

Dear "fellow team members":

A recent announcement in the faculty and staff newspaper *Outlook* stated that President Kirwan and the vice presidents are looking at all possible ways to "minimize the impact" of the 40-hour work week scheduled for implementation on July 1. Let the voices of the people it will affect be clearly understood: *there is one way to minimize the impact—COMPENSATION.*

The Maryland state classified employees who are currently working a 35 1/2 hour work week are not lazy complainers, whining about the prospect of working an eight-hour day; rather, they are essential contributors to the state—regular people with names and faces who are now told that they will work additional hours *for free*. It is not the extra hours that are the issue—it is the *UNCOMPENSATED* extra hours that are now mandated. Who among *any* group of 40-hour week workers in government or industry would gladly work an extra 4 1/2 hours per week for free?

Let's look at a slightly bigger picture. In the name of solving the state's budget problems, the governor (while granting himself a 41 percent raise) has already affected the salaries of state classified employees in three major ways:

- Step increases (annual increments that are part of the *implied contract* classified employees accepted upon employment) were eliminated Jan. 1.
- Cost of living increases have

been eliminated effective immediately.

- Five percent increase in the employee's cost of health care while the state pays five percent less became effective Jan. 1.

Now, despite a lack of adequate study and evidence that such a mandate will save the state any substantial sum of money, the governor and his appointed followers, the Board of Regents, are gearing up to implement a devastatingly ill-conceived plan: mandatory extra hours of work for classified employees without pay.

The university's classified employees implore the president, chancellor, Board of Regents and all involved up to Governor Schaefer to open their eyes and *really look* at this issue. It is not just a matter of the state's budget, it is an equity issue—the targeted group affected by the Executive Order being comprised mainly of women, who historically have received the lowest compensation.

It is also an issue of broken trust, *broken implied contract* and low morale—an intensifying feeling among many classified employees of being devalued and unimportant. Certainly many feel unimportant in the process of creatively helping to resolve the state's budget problems. All of these effective salary reductions have been accomplished by one man's *mandate*—without any show of consideration for how it might be received. Clearly the whole thing reeks of bad politics.

Maryland's classified state employees are the 'grease and gears' that make the whole machine work.

ALL WE ASK IS A FULL DAY'S PAY FOR A FULL DAY'S WORK.

Sincerely,
Marilyn L. McGhee, Cooperative Extension Service

UNIVERSITY OF MARYLAND AT COLLEGE PARK

Forty-Hour Work Week Update

The report from Deputy Chancellor Jean Spencer to Chancellor Langenberg regarding the impact of the forty-hour work week on university employees is expected to be completed early in May. College Park top administrators have been analyzing possible ways to lessen the impact of the governor's decision to increase the work week of classified staff.

Applications Sought for New Ombuds Officer Position

A search committee jointly appointed by the Faculty Grievance Panel and President Kirwan is seeking applications for the newly created part-time position of ombuds officer. The deadline is May 23. Applicants should be either tenured faculty members at the university or retired faculty members. Release time from teaching and staff support will be provided by the president's office. The position is designed to be an important part of the new grievance procedures, and the first occupant will have a significant role in developing and defining the office. For further information, call committee chair Barbara Meeker at 405-6432.

Mordecai Brower

Diversity Efforts Honored

Janet Helms, professor of psychology; Sharon Fries-Britt, assistant to the vice president of Student Affairs; and Mordecai Brower, maintenance chief IV and supervisor in the General Services section of Physical Plant will receive this year's minority achievement awards for individual faculty and staff members.

Also to be honored are the Department of Art, Keith Morrison, chair, and the Nyumburu Cultural Center, J. Otis Williams, director, as the academic and non-academic units that have made outstanding contributions to equity efforts this year at the university.

Two students, undergraduate Stephanie Robinson, a government and politics major, and David

Banks, a Ph.D. candidate in human development, will receive the annual minority student achievement awards.

A festive awards ceremony is planned for Thursday, May 16 in the garden of the Rossborough Inn from 3:30 to 5 p.m. Officiating will be journalism professor Ben Holman, chair of the President's Commission on Ethnic Minority Issues, sponsor of the annual honors. President Kirwan will also be present. The campus community is invited to attend.

Each year the awards are given to individuals and units that have made substantial contributions toward making College Park an institution of excellence through diversity.

Holman feels the awards are very important. "If our stated goal is increased diversity," he says, "then we need to reward those people who help move us toward that goal."

Holman also hopes that large numbers of faculty, staff and students will come to the reception. "It's a way of saying to those who are doing good things, 'We do appreciate what you are doing.'"

"And," he adds, "It never rains on one of these events!"

For further information about the reception, call 405-5801.

Reception to Honor Schmitz

continued from page 1

research institutions to College Park.

The conference will take place from May 29-31 at College Park, with presidents of 20 of the top public and private research universities invited to attend. Hosted by the American Council on Education and UMCP, the "Presidents' Conference on the New Agenda of Women for Higher Education" will discuss the development of a new paradigm—a model that will move higher education into the 21st century on women's issues.

Participants will discuss such issues as transformation of the curriculum, affirm the role of diversity in education, and address ways to implement plans for comprehensive institutional change.

The conference has been coordinated by Schmitz, Donna Shavlik, director, and Judy Touchton, deputy director, Office of Women in Higher Education, American Council on Education, and Diana Jackson, Asst. Dean, Behavioral and Social Sciences.

Schmitz has announced that at the end of June she will leave the university to become a Fellow at the Assn. of American Colleges and a private consultant in higher education.

Roz Hiebert

Conference on Post Gulf War Issues to be Held

The economy, international trade, education and a changing racial mix are among some of the most pressing and controversial domestic issues facing the nation and its leaders in the wake of the war in the Persian Gulf.

They will be addressed and debated during a day-long policy conference hosted by the School of Public Affairs.

"Picking Up the Pieces: The United States After Desert Storm" will be held May 21 in the Edward R. Murrow Room of the National Press Club in Washington, D.C.

Four panels of leading authorities from the School of Public Affairs faculty, the Federal government, Washington-based think-tanks and the private sector will examine such issues as the internal political consequences of the war, the outlook for the deficit, trade and international competition, national security policy, race relations, poverty, education and productivity.

Reporters from *The Washington Post*, *Time*, and *Knight Ridder* will question the panelists. Michael Nacht, Dean of the School of Public Affairs will open the conference with an overview of the issues.

Reception Held to Celebrate Teachers

Teaching and teachers at the university, secondary and elementary school levels were celebrated at a May 2 reception at the Rossborough Inn Garden.

Part of a campus-wide effort to reform undergraduate education and to recognize and reward good teaching, "Celebrating Teachers" was the second of what Jim Greenberg of the Center for Teaching Excellence hopes will be an annual event.

The reception was sponsored by the Office of the Dean for Undergraduate Studies and the Office of the Vice President for Academic Affairs. The deans of all colleges and schools on campus were asked to nominate two or three top scholars among their graduating seniors. These students were then asked to nominate two outstanding teachers in their lives—one from the College Park faculty and one from their pre-college educational experience.

These teachers were invited to the special reception honoring them and their students. Each student presented a certificate to the teachers and spoke about what made them so special. Students picked 29 College Park faculty members for this honor.

Bradford Named Associate Business Dean

William D. Bradford, professor of finance at the College of Business and Management and former chair of its finance department, recently was appointed associate dean of the college by Dean Rudy Lamone. Bradford succeeds Burt Leete, who returns to the faculty ranks this summer after serving four years as associate dean.

Bradford's research on minority-owned financial institutions has received national attention. His other scholarly interests include small business development and banking.

Bradford, who earned his Ph.D. from the Ohio State University, assumes his new post in July.

William D. Bradford

Workshop Set for Math and Engineering Education

The College of Engineering will host a national workshop on changes in the way mathematics and engineering are taught. The June 5 and 6 workshop is being sponsored by the National Science Foundation.

National leaders in mathematics and engineering education reform, and representatives from the federal government and national associations will share highlights of some of the best innovative projects underway around the country and develop an action agenda to implement them nationwide.

President William E. Kirwan, who chaired the National Academy Committee on Mathematics Education, will deliver the keynote address at noon June 5 during a luncheon at the Center of Adult Education. Other speakers include the National Research Council's Karl Pister, head of the Engineering Education Board, and Ken Hoffman, executive director of the Mathematics, Science Education Board.

Campus Senate Has Full Agenda for Monday, May 6

The next Campus Senate meeting is Monday, May 6 from 3:30 to 6:30 p.m. in Room 0126 of Reckord Armory, with an agenda so full that no special order of the day speaker has been scheduled. Among the items to be considered are: task force recommendations for campus governance, procedures for the periodic selection of chairs and deans, guidelines for use in cases of dismissal, merit pay, a campus internship policy, and plans of organization for the colleges of education and of health and human performance. Call 405-5805 for information.

Campus Senate News and Views: Some Spleen from the Chair

by Bruce Fretz

Are we as ready to accept shared responsibility for the university as we are to seek shared governance?

Through the perseverance of our task forces to review recommendations for campus governance and then the senators attending two protracted meetings of the Campus Senate on April 11 and 15, we are finally nearing the approval of a set of recommendations that provide for increased roles of faculty, staff and students in the governance at all levels of the university: departments, colleges, and the campus at large. These recommendations, when implemented, will be the culmination of literally years of advocacy on the part of many members of our campus community.

Now is the time we must recognize that these new privileges should also be accompanied by a greater sense of *shared responsibility* for what happens at and to the university. There are committees working on new strategies for improved retention, diversity, advising, recognition of teaching, support of research, quality of life for retired faculty, and for demonstrating how well we are accomplishing our stated mission. From most of these committees one learns that precious few departments have had any procedures to address these issues nor felt a strong commitment for the *unit* to develop responses to

the issues. Much more readily agreed is that "the university" should develop such procedures.

Senate committee chairs learn quickly, as do campus administrators in the provost and deans' offices, that the primary—too often seemingly the *only*—loyalty of faculty, staff and students, is to their own program, department or unit. Someone "else" needs to address these "other" issues.

In recent decades, psychologists have repeatedly demonstrated how diffusion of responsibility often leads to no one taking responsibility—as long as we can see lots of others who rightfully have some responsibility for an issue, we are less likely to take action ourselves.

As one colleague stated, the University of Maryland proves the fallibility of the statement, "the sum is greater than the whole of its parts." "At College Park," he said, "the sum doesn't do anything."

Now, he was not specifically castigating our administration but rather our lack of collaborative commitments to the university as a whole. In the past few decades we have functioned much more, both fiscally and ideologically, as a collection of fiefdoms rather than as "an institution of higher learning."

As we ask for a greater degree of shared governance in academia, in accordance with the procedures we

are about to approve, might we also accept some shared responsibility for what happens at and to our university? Can we more enthusiastically share in setting *and implementing* higher standards for teaching research and service? Can we commit some of our units' fiscal and personnel resources needed for improvement of the campus as a whole? While such investments will have no immediate *direct* effects for our units, the payoff will come from the improvement of our university as a whole. Compared to all our aspirational peer institutions, we have very low levels of support from the citizens of our state, from legislators and even from our own alumni!

As we cope both with the reduced fiscal resources we will have in the coming years as well as the challenges we have set for ourselves ranging from improvement of advising to raising retention rates to enhancing the quality of life for retired members of our university, can we begin less often to ask, "What can we get for our department?" and more often, "What can we do for the university?" Great universities occur when there is shared responsibility as well as shared governance.

Thank you for your indulgence of this catharsis!

New Association to Promote Unity Among Asians

Bringing together diverse Asian-American groups and promoting their common objectives are goals the Asian-American Faculty Staff and Graduate Assistants Association plan to achieve at College Park, says Gloria Bouis, Program Coordinator for the Office of Human Relations Programs.

"Based on recent statistics there are only nine Asians in administrative positions," says Bouis, "and about 56 in associate staff positions. The majority of the non-academic (non-faculty) Asian employees are classified staff. All together there are about 400 faculty and staff who are Asians, but out of these very few are in a position to provide a representative voice on this campus. But there are enough of us to form a group and gain the needed visibility."

Because there is a growing number of Asians at the undergraduate and graduate level, Bouis and some of the other founders felt a need to form a support group that would provide equal educational and career opportunities for those students, as well as for the Asian faculty and staff.

Members of the founding working group include Tsze Chan, professor of Afro-American Studies;

Pat Martin, graduate student in Human Development and Bonnie Oh, Assistant Dean of Undergraduate Studies.

"It's been in the back of our minds for two years," says Bouis. "It started off as an informal networking, but we wanted to be able to touch base with each other in a more organized way. I've been here five years, but often I feel there is a lack of the Asian perspective in the campus's events, committees and networks. I think we need this if we truly want this campus to be multicultural and pluralistic."

Although the association received a lot of inspiration from the Black Faculty and Staff Association and hopes to have a similar structure, Bouis assures the groups will not be in any way competitive.

"We're not competing with the Afro-Americans," said Bouis, "We're using them as a role model because they have done a lot so far on campus. We don't want anyone to think we're stepping on their toes. We just want to have the voice that it is about time we have. Since one of the goals of the university is to become more pluralistic, I think it would be beneficial to have all the minority groups work together. Especially the groups of color. Not

taking anything from each group, but enforcing it and vice-versa," she says.

Roberta Coates, President of the Black Faculty and Staff Association, agrees that competition will not be an issue and assures their organization will be supportive.

"We're definitely in support of them," says Coates. "The black community often has been a group who has opened the doors for other minorities since the Civil Rights movement, and we are definitely still willing to continue being a vehicle for others."

At the next Asian-American Association meeting which is tentatively scheduled for May 10, the group will begin finalizing the structure, electing officers, setting up an advisory council, and discussing ways to complement the Undergraduate Asian/Pacific Student Association.

For more information contact Gloria Bouis in the Office of Human Relations at 405-2482.

Patricia Gay

Volunteers Needed for Cardiovascular Studies

The Department of Kinesiology and the Center on Aging are looking for 55-75-year-old males, with or without high blood pressure, for two studies on the effects of aerobics and strength development on cardiovascular risk factors. Volunteers will be provided with over \$3,000 worth of free medical/fitness evaluations, a professionally supervised four-month strength training or aerobics program, a full health report and a program for the continuation of exercise. For more information, call John Miller at 405-2484 about the strength training study and James Hagberg at 405-2570 about the aerobics study.

ARTS

Summer to Feature Vocalists

College Park's summer tradition of beautiful music continues this July with the first-ever University of Maryland International Marian Anderson Vocal Arts Competition and the First American Vocal Arts Congress.

These major vocal music events will bring singers from throughout the world to the university for a major competition and an educational gathering of performers. The two events, both sponsored by the Maryland Summer Institute for Creative and Performing Arts, will include a number of public performances.

The Marian Anderson Vocal Arts Competition will be held July 10-20 at College Park and in Washington, D.C. Forty singers from throughout the world will participate in the competition for which \$50,000 in prizes are being offered. The first prize is \$20,000 and a New York recital. A group of internationally acclaimed singers, including Sherrill Milnes, the president of the First American Vocal Congress, will serve as the competition's jury.

The competition finals will be held July 20 at the Kennedy Center Concert Hall where the four finalists will perform an evening of oratorio, art songs and opera excerpts with the National Symphony Orchestra.

The preliminary, semi-final and final rounds of the competition will be held at Tawes Theatre July 10-15 and July 17.

A testimonial dinner for Marian Anderson, the acclaimed contralto and competition namesake, will be held July 18.

Opera singer, Sherrill Milnes, American Vocal Congress President

In the future, the Anderson Competition will be held every fourth year, alternating with two other competitions: the William Kapell Piano Competition, that will be held every other year, and the Leonard Rose Cello Competition that will be initiated in 1993 and held every fourth year thereafter.

The Vocal Arts Congress will be held July 16-20 at College Park. Congress events will include symposia, exhibits and a recital series, "American Works for Voice." Sherrill Milnes and colleagues will perform as part of two gala evenings of songs July 16 and July 19 at Tawes Theatre. The performances will feature many of the vocalists participating in the conference and members of the vocal competition jury.

For ticket information and details about other summer music events see the accompanying article and the summer calendar (Page 8).

Ticket Information for Summer Music Events

College Park faculty, staff, students and Alumni Association members can receive tickets for summer music events held at College Park through the purchase of a Summer Activity Card.

The cards are \$10 per summer session. The sessions are June 3-July 12 and July 13-August 23.

First session activity cards cover the performances by pianist Alexei Sultanov June 4, the New York Chamber Ensemble June 8, the Lark String Quartet June 11, The National Orchestral Institute Philharmonic June 15, the Annapolis Brass Quintet June 18, the National Orchestral Institute Philharmonic June 22, and the National Symphony Orchestra Principals Woodwind Quintet June 25.

Second session activity cards cover Marian Anderson Vocal Arts Competition and First American Vocal Arts Congress events held at College Park.

Tickets for events in Baltimore and Washington, D.C. must be purchased separately. Also, tickets for each event are available for sale to persons who do not purchase activity cards.

For more information call 301-405-6551.

Youth Orchestra to Form in September

The formation of a new youth orchestra for children of College Park faculty and staff members is being planned for the fall. Organizers Jesse Parker and Dennis Blumer hope to provide young musicians ages 9-14 with expanded opportunities for ensemble and repertory experience through once-a-week rehearsals and occasional concerts. To be put on a mailing list to receive a brochure about the new program, leave a message at 405-4945.

Gothard Lane Makes Success Story of Varsity Sports, Tournaments

They call it March Madness. The NCAA Basketball Tournaments. For tournament organizers, the madness applies to the logistics involved in planning the tournament's events. There is plenty that can go wrong, but at College Park, events run smoothly, deadlines are met, the tournament goes on and the fans and players return to their homes happy. Much of this is due to the hard work and planning of Gothard Lane.

Lane, assistant athletic director for varsity sports, oversees 17 of the 23 varsity sports at College Park, and he and his staff plan all conference and NCAA Championships hosted by this campus.

This past March, Lane oversaw the basketball tournament which brought to campus eight teams, thousands of visiting fans, 250 members of the news media and \$8 million in revenue to the city of College Park and Prince George's County.

"People are beginning to call us 'Championship U,'" Lane says. "Since 1989, we've hosted more championship tournaments than any other university."

In the past two years College Park has hosted basketball, volleyball, wrestling and lacrosse tournaments. The university has written a proposal to host the women's lacrosse final-four tournament in 1992.

"We are particularly good hosts because of our location near Washington and because we try to provide great hospitality for our guests," Lane says. "During the women's volleyball tournament last December we took the teams to dinner on Capitol Hill and arranged for Rep. Steny Hoyer to take them into the Capitol Building for a 45-minute lecture on Congress. When we hosted the lacrosse tournament in 1989, we took the Lacrosse Committee to the White House for a tour. Nobody else can do that."

Lane points out that successfully run tournaments also produce a positive public image for the university and increase the recruitment pool of high-quality student/athletes.

Lane has been at the university for 17 years and was an assistant football coach before entering his current position in 1982. Before

coming to this university, he had been a football coach at Tulane University, and Virginia Tech. He is a graduate of Randolph-Macon College in Ashland, Va.

Lane also oversees renovations of the university's golf course and tennis bubble. "At the golf course this spring we are creating a new food service capability where hot food can be served," he says. "We are increasing the number of golf carts by one-third and are upgrading other equipment and cart paths. Eventually this course will be the jewel it can be."

Lane says there also are plans to replace the tennis bubble in about a year. In the meantime, small improvements are being made there. "We are putting nets between the courts and adding new bleachers and furniture," he says.

"I have the very best job on campus," Lane adds. "The people I work with make it a pleasure to come to work every morning. They are the reason people in collegiate athletics are beginning to call us 'Championship U.'"

Fariss Samarrai

Gothard A. Lane

Blitz featured in "The Astronomers"

Leo Blitz, College Park professor of astronomy, is one of several preeminent astronomers featured on public television's new six-part series, "The Astronomers." Blitz was filmed on campus last spring by KCET, the Los Angeles-based public television station producing the series. Blitz is featured on the fifth show discussing BIMA (Berkeley, Illinois, Maryland Array), a radio telescope being built in part by this university at Hat Creek, Calif. The show will air May 13 on public television stations.

Zoology Hosts Summer Biology Institute

Bretton W. Kent

Because of the volume and complexity of material presented to high school and introductory college biology students, there is a growing awareness that many of these students are having difficulty grasping the concepts of modern biological sciences.

As a result, many school systems, colleges and universities have begun designing courses based on the conceptual aspects of biology. College Park has been pursuing this course for several years.

Last summer, the Department of Zoology instituted a six-week program, the Summer Biology Institute (SBI), to bring together secondary school biology teachers, university teachers and research faculty for the purpose of exploring innovative methods of teaching biology. The department will run the institute again this summer on campus.

"SBI is built around the highly successful first-year undergraduate biology program at College Park and is organized as a sharing of information and insights between

colleagues in biological education," says Bretton W. Kent, an instructor in the Department of Zoology and director of SBI.

SBI approaches biology education with two basic concepts: first, that students should be taught to think like biologists rather than to simply regurgitate information, and that, because biology is largely experimental, students should have opportunities to gain enthusiasm for the science by designing and executing their own scientific experiments, Kent says.

Through its lectures, laboratories, field trips and research seminars, "SBI is designed as an opportunity for biological education faculty—both at the college and secondary levels—to share information and insights rather than for us to simply instruct secondary teachers in the teaching of biology," Kent says.

The lectures in the program, according to Kent, are presented by university faculty and cover such topics as speciation, sociobiology,

gene regulation and immunology.

The laboratories present a problem or scenario to participants which must be solved by designing and conducting original experiments.

Field trips include work on university electron microscopes and a tour of agricultural research projects at the Wye Research and Education Center on the Eastern Shore.

Guest seminars cover such current research topics as the evolution of courtship displays in bowerbirds and the molecular basis of vision in horseshoe crabs and on the recruitment of women and minorities into biology careers.

"These seminars reinforce the concept that biology is fundamentally experimental in nature, and they allow participants to interact freely with a wide-range of university faculty," Kent says.

Program participants receive a stipend and eight graduate credits in biology.

Corrections

Please insert the two items in bold italics (below) into the April 1 retirement story. In the first column answer to "What does 'without penalty' mean?," the first sentence should read: ***"After attaining 25 years of service, TRS and ERS participants may retire...."*** In the fourth column answer to "What is that 'Replacement Ratio' you just mentioned?," the second sentence should read: "The formula is: $RR = \text{All Retirement benefits (Pension + OASDI + Tax-deferred Annuities) less taxes, divided by Take-Home Pay while employed (Salary less taxes, less contributions to pension plan, to FICA and to tax deferred annuities), times 100.}$ "

The April 22 story, "The 'Shrew' Goes West," should say that play director Mitchell Patrick has an MFA degree in theater from the University of Washington in Seattle, is coordinator of the acting area in the Department of Theatre and was the director of the well-received 1988 University Theatre production of *The Tempest*.

Program in Molecular and Cell Biology to Host Symposium

A Symposium in Molecular and Cell Biology, featuring several internationally recognized molecular-cell biologists as guest speakers, will be held May 10, from 8:45 a.m. to 5 p.m. in the Colony Ballroom of the Stamp Student Union Building.

The theme of the symposium will be "Receptors and Signal Transduction" in cells, according to Inder K. Vijay, acting director of the Program in Molecular and Cell Biology at College Park and the local host. The symposium is sponsored by the University of Maryland System-wide Inter-campus Operating Committee of the Graduate Program in Molecular and Cell Biology.

Robert Dorfman, vice president for Academic Affairs and Provost,

will open the symposium at 9:15 a.m.

"The symposium should offer the first opportunity for our community to get a sampling of the rapid development of the Ph.D. program in Molecular and Cell Biology on our campus and the research in the Maryland Biotechnology Institute," Vijay says.

The keynote speaker will be Harvey Lodish of the Massachusetts Institute of Technology. He will deliver the Endowment Award Lecture on the "Structure and Function of Erythropoietin," a protein that is critically involved in the biogenesis of red blood cells.

Molecular-cell biologists Joseph Schlessinger, New York University; Thomas Silhavy, Princeton University; Gerald Hart, Johns Hopkins

University; and Paul Kelly, McGill University, Canada, will present their work in a mini-symposium on the theme topic. A number of molecular and cell biologists within the University of Maryland System will present their work in the form of poster displays.

Jeffrey Fox, a free-lance science writer and contributing editor to several scientific journals, will address practical aspects of molecular-cell biology.

Several biotechnology companies, manufacturers and distributors of scientific equipment and supplies will exhibit their products and services.

For more information call 405-6991.

Program Hopes to Attract Under-represented Grad Students

A program designed to increase the number of students in doctoral programs will begin this summer at College Park.

The Ronald E. McNair Post Baccalaureate Achievement Program, which will target low income first generation, under-represented groups and the physically handicapped, is just one of the 28 programs funded by the U.S. Department of Education. Students selected to participate in the program will join 558 students in similar programs nationwide. The areas of study will include African-Ameri-

can Studies/Economics; Biophysics; Biochemistry; Chemistry; Earth, Atmospheric and Marine Sciences; Mathematics and Mathematics Education; Physics; and Public Affairs.

Other services provided by the program will include preparation for graduate admissions tests, academic counseling, tutoring, writing workshops, paid research internships, financial assistance, and application assistance.

Faculty researchers can also take advantage of the program through the research mentoring component

which will provide valuable experience and free research interns.

The McNair program is named for the late physicist and astronaut, Dr. Ronald E. McNair who died in the Challenger explosion in 1986. For more information, call Jerry Lewis, Program Director at 405-4736 or Nthakoana Peko at 405-4739.

Patricia Gay

New Library Program Expands Faculty Borrowing Privileges

If you are a College Park faculty member traveling to or planning to do research at another university or college, because our Libraries now participate in the Reciprocal Faculty Borrowing Program, you can arrange to have borrowing privileges and on-site access to some of the most important research libraries in North America. Information about participating libraries and a reciprocal borrowing card may be obtained at McKeldin Library. Call 405-9251 for information.

F.Y.I.

Kudos To...

John Loss

John Loss (Architecture) for being elected to Fellowship in the American Institute of Architects. His investiture will take place during AIA's national meeting May 18. Loss was cited for his research activities and for founding the Architecture and Engineering Performance Information Center.

Cyril Ponnampereuma

Cyril Ponnampereuma (Chemistry and Biochemistry) for having the title, *Chevalier de L'Ordre des Arts et des Lettres*, conferred on him by French President Francois Mitterand in recognition of his work in promoting international cultural understanding in connection with the celebration of the French Revolution Bicentenary. Among his current international activities, Ponnampereuma is directing a special international conference on chemical evolution and the origin of life to be held May 28-31 at Trieste, Italy.

Delia Neuman

Delia Neuman, (Library and Information Services) for being awarded the American Library Association's highest award, the Carroll Preston Baber Research Grant. The award comes with a \$10,000 grant, which Neuman plans to use for research on design and curricular issues related to improved electronic database use by high school students.

Virginia Beauchamp

Virginia Beauchamp (English) for being inducted into the Prince George's County Women's Hall of Fame at a ceremony on March 27 in Largo, Maryland.

Mark Levy

Mark Levy (Journalism) for being named editor of the *Journal of Communication*, published by Oxford University Press. New associate editors are **Michael Gurevitch** (Journalism), **Edward Fink** and **Vicki Freimuth** (Speech and Communication) and **Marjorie Ferguson** (Radio-TV-Film). **Jay Blumler** (Journalism) is the new international editor.

Evelyn Valentine

Evelyn Valentine (Alumni Association President) for being awarded a Phi Delta Kappa Educational Foundation Silver Anniversary Around-the-World Travel Seminar Scholarship. Valentine received the scholarship to support her interest in international education and to provide recognition for outstanding service to the international educators fraternity.

Pegaret Pichler, Dilip Madan, Eric Chang, Cheol Eun and Lemma Senbet

Pegaret Pichler, Dilip Madan, Eric Chang, Cheol Eun and Lemma Senbet for being selected to present papers at the Western Finance Association's annual meeting this summer. The association is considered by many to be the most prestigious academic finance organization in the country.

Leah Williamson

Leah Williamson (junior) for winning the \$2,200 National Endowment for the Humanities Younger Scholars grant for a summer study project, "Community Leadership Versus Tammany Hall."

Hans Wellisch (Library and Information Services) on the publication of his new *Indexing from A to Z*, a guide to the craft of indexing intended for authors, students and professional indexers. Wellisch, a professor emeritus, was president of the American Society of Indexers from 1984-85.

Jim Grunig and Lauri Grunig (both Journalism) for being named by respondents to a survey of public relations professionals by *PR Reporter* newsletter as being "most admired in the field." He was listed as being respected in all professional categories; she was cited for her teaching and applied research.

The **1990 Accountability Committee** for their report, now being recommended by the American Association of Higher Education as a model example of accountability in higher education for four-year institutions. The report has also served as the model for the Maryland Higher Education Commission's Student Learning Outcomes Report.

Maynard "Sandy" Mack Jr. (English) for winning the 1991 Outstanding Teacher Award in the South Atlantic Modern Language Association Region in Category One—Ph.D. granting institutions. As winner of this prestigious award, Mack has been invited to present a paper at the session on teaching at the 1991 SAMLA meeting in Atlanta in November.

The **College of Behavioral and Social Sciences** for producing more students elected to Phi Beta Kappa this year than any other unit. Of the 89 seniors who were elected to the nation's oldest and most distinguished honor society, 34 were from BSOS, and of the 18 juniors, 6 were from the college.

James Henretta, (History) for being appointed to the 1991-92 Harmsworth Professorship in American History at Oxford University. The post is considered the most prestigious foreign appointment in the field of American History. Henretta will present a series of lectures and conduct seminars and classes during his year at Oxford.

Undergraduate students in the Graphic Design Program for designing 10 of the 24 pieces selected for exhibition in the Art Directors Club of Metropolitan Washington's "1991 Real Show Graphic Design Competition," and in particular to **Chris Leonard**, gold medalist, and **Peter Zulkarnain**, silver medalist and *Outlook* production intern.

Nancy Schlossberg for presenting three lectures last month as the first visiting professor to hold the Lowell W. Hellervik/Personnel Decisions, Inc. professorship in adult career development at the University of Minnesota.

John Guthrie (Center for Educational Research and Development) and **Andrew Wolvin** (Speech Communication) for being appointed as experts to the Commission on Achieving Necessary Skills recently established by the U.S. Department of Labor. The commission has been asked to identify the basic skills necessary for American high school graduates to function effectively in the workplace.

Madeleine Hage (French and Italian) and **Roberta Lavine** (Spanish and Portuguese) for organizing and running the first Foreign Language Instruction Committee Symposium in conjunction with the newly organized Language Center. The April 13 program featured speakers from the university's language departments and the Maryland English Institute.

Karen Johnsen (Health Services) for being the subject of a feature in the *Bowie Blade-News* about the work she has done to organize a support group for people with fascioscapula-humeral dystrophy, a rare muscular disease. Johnsen, who has the disease herself, has devoted much time to identifying families coping with the problem, planning support group gatherings and writing newsletters.

William Galston (Public Affairs) and **Peter Murrell** (Economics) for being appointed Woodrow Wilson Center Fellows for 1991-92. Galston's project is entitled "Political Theory: Autonomous or Interdependent?" Murrell will work on a comparative economic analysis of Eastern European economic reforms. The two Maryland professors were among 39 scholars selected for the honor from this year's field of 755 applicants.

Herb Foerstel (Libraries) on the publication of his new book, *Surveillance in the Stacks: The FBI's Library Awareness Program* (Greenwood Press), billed as "the first book to document and analyze the FBI's wide-ranging surveillance of libraries."

Richard Calabrese (Chemical Engineering) on receiving a Fulbright Scholar Award for 1991-92 and a visiting fellowship from the Science and Engineering Research Council (the British NSF). Calabrese will use the fellowships to carry out research at the University of Birmingham (England) on the dynamics of liquid-liquid dispersions.

The **1 O'Clock Jazz Lab Band** for their outstanding debut at the Duke Ellington Festival April 29 at U.D.C. **George Ross** (Music) is the director of this new student group.

CALENDAR

CESAR Board Available

The Center for Substance Abuse Research (CESAR) offers an electronic bulletin board featuring substance abuse information called CESAR Board. CESAR Board can be contacted 24-hours a day, 7-days a week, free of charge using a computer and a modem. Information includes state drug and alcohol survey results, a directory of treatment programs, drug arrest statistics, drug use trends, and much more. For information, call 405-1571.

MAY 6-AUGUST 31

6 MONDAY

School of Public Affairs Bureau of Governmental Research Conference: "Maryland Tax Policy: Who Pays and Who Benefits," 8:30 a.m.-4:30 p.m., Center of Adult Education. Call 5-6346 for info.*

Center for Global Change Colloquium, Stephen Leatherman, Geography, noon-1:30 p.m. (bring lunch), 1137 Stamp Student Union. Call 80-4165 for info.

Black Faculty and Staff Association Seminar: "Your Professional Image: Your Key to Success," Daisy Saunders, Saunders and Associates, noon-2 p.m., Maryland Room, Marie Mount. Call 4-7225 for info.

Counseling Center Workshop: "End of Semester Survival Skills: Putting it all Together," 2-3 p.m., 2201 Shoemaker. Call 4-7693 for info.

Meteorology Seminar, 3:30 p.m., 2114 Computer and Space Sciences, reception at 3 p.m. Call 5-5392 for info.

Campus Senate Meeting, 3:30-6:30 p.m., 1026 Reckord Armory. Call 5-5805 for info.

Horticulture Seminar: "TBA," Pamela Jo Hathaway, grad. student, Horticulture, 4 p.m., 0128B Holzappel. Call 5-4356 for info.

Computer Science Colloquium, 4 p.m., 0111 Classroom Bldg. Call 5-2661 for info.

Space Science Seminar, 4:30 p.m., 1113 Computer and Space Sciences Bldg. Call 5-4829 for info.

7 TUESDAY

Department of Germanic and Slavic Languages Danish Lecture, featuring playwright Jess Ornsbo, 12:30-1:45 p.m., multipurpose room, St. Mary's Hall. Call 4-7735 for info.

Classics Department Lecture: "Oedipus, Odysseus, Odin and Oida," Dorothea Wender, Wheaton College; response, Gregory A. Staley, 4 p.m., 2309 Art/Soc. Call 5-2013 for info.

Zoology, Botany, and Entomology Colloquium: "Light Lunches for Insects on Phototoxic Plants," May Berenbaum, U. of Illinois, noon, 1208 Zoo/Psych. Call 5-3912 for info.

Physics Colloquium, 3:30 p.m., 1410 Physics. Call 5-5953 for info.

8 WEDNESDAY

Art Gallery MFA Thesis Exhibition, today-May 17, Art Gallery, Art/Soc. Call 5-2763 for info.

Counseling Center Research and Development Meeting, noon-1 p.m., 0106-0114 Shoemaker. Call 4-7691 for info.

Center for Teaching Excellence Faculty Discussion: The Student Perspective," noon-1:30 p.m. (bring brown-bag lunch), Maryland Room, Marie Mount. Call 5-3154 for info.

Zoology, Botany, and Entomology Seminar: "Defense and d'tente in an Insect-Plant Interac-

tion," May Berenbaum, Entomology, U. of Illinois, noon, 1208 Zoo/Psych. Call 5-6884 for info.

Graduate School Distinguished Lecturer: "The Evolution of Afro-American Studies," Henry Louis Gates, English, Duke U., 3:30 p.m., 2203 Art/Soc. Wine and cheese reception to follow outside in Tawes Plaza. Call 5-4258 for info.

Music Department Concert: Graduate String Quartet Showcase, 8 p.m., Tawes Recital Hall. Call 5-5548 for info.

9 THURSDAY

Campus Club Spring Luncheon, featuring special guest Patricia Langenberg, noon-3 p.m., at the president's residence, guests welcome. Call 384-1479 for info.*

Graduate Student Government Meeting, 3 p.m., 1143 Stamp Student Union. Call 5-5788 for info.

Systems Research Center Colloquium: "A Multi-Gb/s Optical Computer Interconnect," Jon R. Sauer, Center for Optoelectronic Computing Systems, 3-4 p.m., 1100 ITV Bldg. Call 5-6634 for info.

Distinguished Alumni Lecture: "Molecular Basis of the Tropism that Certain Bacteria Display for Teeth," Ronald J. Gibbons, Harvard School of Dental Medicine, Boston, 3:30 p.m., 1207 Microbiology Bldg. Call 5-5471 for info.

Meteorology Seminar, 3:30 p.m., 2114 Computer and Space Sciences, reception at 3 p.m. Call 5-5392 for info.

Reliability Engineering Seminar, 5:15-6:15 p.m. 2115 Chemical and Nuclear Engineering Bldg. Call 5-3887 or 5-3883 for info.

Katherine Anne Porter Symposium Opening Reception and Exhibition: "Katherine Anne Porter at One Hundred," 6-7:30 p.m., Architecture Gallery, Architecture Bldg. Call 5-9207 for info.

"Physics is Phun" Lecture/Demonstration: "Physics IQ Test," today-May 11, 7:30-8:45 p.m., pre-show of apparatus, 7 p.m., 1410 and 1412 Physics Lecture Halls. Call 5-5994 for info.

University Theatre: "The Taming of the Shrew," today-May 11, 8 p.m., Tawes Theatre. Call 402-2201 for info.*

10 FRIDAY

"Katherine Anne Porter at One Hundred: New Perspectives," two-day symposium, 8:30 a.m.-10 p.m. Friday and 8:30 a.m.-12:30 p.m. Saturday, Stamp Student Union and Adult Education Center. Call 5-9255 for info.*

Speech Communication Colloquium: "Evaluation of Arguments in Evolutionary Biology: The Case of Gould and Lewontin," Jeanne Fahnestock, English, noon, 0147 Tawes. Call 5-6524 for info.

College of Business and Management and First National Bank of Maryland Research Colloquium: topic TBA, Anthony Santomero, U. of Pennsylvania, 1-2 p.m., 2102 Tydings. Call 5-2256 for info.

University Band Annual "Pops" Concert, L. Richmond Sparks and Steven Johnson, conductors, 8 p.m., Grand Ballroom, Stamp Union. Call 5-5548 for info.*

University Theatre: "The Taming of the Shrew," 8 p.m., Tawes Theatre. See May 9 for details.*

11 SATURDAY

University Theatre: "The Taming of the Shrew," 8 p.m., Tawes Theatre. See May 9 for details.*

12 SUNDAY

University Chorale Annual "Pops" Concert, Roger Folstrom, conductor, 8 p.m., Adult Education Center. Call 5-5548 for info.*

13 MONDAY

Art Gallery MFA Thesis Exhibition, today-May 17, The Art Gallery, Art/Soc. Call 5-2763 for info.

Department of Human Nutrition and Food Systems Seminar: "Field Methodologies to Assess Vitamin A Status in Thai Children," Emorn Udomkesmalee, Mahidol U., Bangkok, Thailand, 3 p.m., Maryland Room, Marie Mount Hall, reception following. Call 5-2139 for info.

Department of Germanic and Slavic Languages and Department of Comparative Literature Lecture: "Schibboleth: Derrida and Celan," Hent de Vries, Lafayette U., 3:30 p.m., multipurpose room, St. Mary's Hall. Call 5-4101 for info.

Entomology Colloquium: "Multitrophic Interactions in Tropical Ant-plants," Deborah K. Letourneau, U. of California, 4 p.m., 0200 Symons. Call 5-3912 for info.

Space Science Seminar: "Solar Flux Monitor for Mars and Earth Missions," Walter Hoegy, NASA/Goddard, 4:30 p.m., 1113 Computer and Space Sciences. Call 5-4829 for info.

14 TUESDAY

Zoology, Botany, and Entomology Seminar: "Pentadactyls Is Not Primitive for Tetrapods!," J.A. Clack, U. of Cambridge, UK, noon, 1208 Zoo/Psych. Call 5-6884 for info.

23 THURSDAY

Commencement

28 TUESDAY

Summer School Program Session I, May 28-July 10. Call 5-6811 or 5-6813 for info.*

JUNE

4 TUESDAY

Maryland Summer Institute for the Creative and Performing Arts Piano Recital: Alexei Sultanov, gold medalist of 1898 Van Cliburn International Piano Competition, 8:15 p.m., Memorial Chapel, General admission \$10. Call 5-6543 for info.*

8 SATURDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: New York Chamber Ensemble, Stephen Rogers Radcliffe, conductor, 8:15 p.m., Tawes Theatre, General admission, \$10. Call 5-6543 for info.*

11 TUESDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: Lark String Quartet, winner of 1990 Naumberg International Chamber Music Competition, performing Mozart, Bartok, and Brahms, 8:15 p.m., Memorial Chapel, \$10 standard admission. Call 5-6543 for info.*

15 SATURDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: National Orchestral Institute Philharmonic, Gerhard Zimmerman, conductor, performing Schwaner, Sibelius, and Strauss, 8:15 p.m., Tawes Theatre. Call 5-6543 for info.

18 TUESDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: Annapolis Brass Quintet, program spanning five centuries of music for brass, including Praetorius, Scheidt, and Weelkes, 8:15 p.m., Memorial Chapel, \$10 standard admission. Call 5-6543 for info.*

22 SATURDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: Noi Philharmonic, Catherine Comet, conductor, performing Bernstein, Mozart, and Mahler, 8:15 p.m., Tawes Theatre. Call 5-6543 for info.

24 MONDAY

College of Health and Human Performance Summer Sports Program, instruction for 6-12 year-olds in soccer, softball, tennis, racketball, basketball, lacrosse and aquatics, 9 a.m.-noon, Monday through Friday, June 24-July 12. Call 5-2503 or 5-2495 for info.*

25 TUESDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: National Symphony Orchestra Principals Woodwind Quintet, program TBA, 8:15 p.m., Memorial Chapel, \$10 standard admission. Call 5-6543 for info.*

26 WEDNESDAY

American Council on Education conference on curriculum transformation, June 26-27, 1991

29 SATURDAY

Maryland Summer Institute for the Creative and Performing Arts Concert: National Orchestral Institute Philharmonic, Maximiano Valdes, conductor, performing Stravinsky and Bernstein, 8:15 p.m., Joseph Meyerhoff Symphony Hall (Baltimore), \$10 standard admission. Call 5-6543 for info.*

JULY

10 WEDNESDAY

University of Maryland International Marian Anderson Vocal Arts Competition, featuring 40 of the world's best young singers, July 10-20, Preliminary rounds, July 10-11, 2 and 7:30 p.m.; July 12, 2 p.m., \$10, Tawes Theatre. Call 5-6543 for info.*

11 THURSDAY

Summer School Session II, July 11-August 21. Call 5-6811 or 5-6813 for info.*

13 SATURDAY

University of Maryland International Marian Anderson Vocal Arts Competition, Semi-final rounds, July 13-15, 7:30 p.m., \$15, Tawes Theatre. Call 5-6540 for info.*

16 TUESDAY

Maryland Summer Institute for the Creative and Performing Arts First American Vocal Arts Congress, July 16-20. All teachers, singers, students, and opera lovers invited. Symposia, lecture-recitals, exhibits and evening Competition Semi-final Rounds. "Sherrill Milnes and Friends I," July 16, 8:30 p.m., Tawes Theatre. Call 5-6540 for info.*

17 WEDNESDAY

University of Maryland International Marian Anderson Vocal Arts Competition, Finals, phase I (recital phase), 8 p.m., \$20, Tawes Theatre. Call 5-6540 for info.*

19 FRIDAY

Maryland Summer Institute for the Creative and Performing Arts First American Vocal Arts Congress, "Sherrill Milnes and Friends II," 8:30 p.m., \$25, Tawes Theatre. Call 5-6540 for info.*

20 SATURDAY

University of Maryland International Marian Anderson Vocal Arts Competition, Finals, phase II, The National Symphony Orchestra, Mstislav Rostropovich, music director, Alessandro Siciliani, conductor, 8:30 p.m., ticket \$5-\$30, Kennedy Center Concert Hall. Call 5-6540 for info.*

AUGUST

23 FRIDAY

University of Maryland Chorus Auditions for 1991-92 season. Call 5-5571 to make an appointment.

24 SATURDAY

University of Maryland Chorus Auditions for 1991-92 season. Call 5-5571 to make an appointment.

* Admission charge for this event. All others are free.
